SUITEMAX AXIS - KEY ATTRIBUTES

SIMPLE ELEGANT DESIGN FOR SUITES VIP SEATING AND OTHER APPLICATIONS - WITH MULTIPLE OPTIONS INCLUDING ROBUST OVERSIZED ANTI-PANIC TABLET ARM AND INTEGRATED STEEL CUPHOLDER IN 5.0" ARM

- **Elegant Simple Design** with compelling visual dynamics will remain current for a lifetime.
- **Surround Foam Patented System** adds to your comfort, prevents fabric marks, prevents foam deterioration and keeps a cool temperature for long lasting use. **FOR FULLY UPHOLSTERED OUTER BACKS AND/OR UNDER SEATS**
- **Patented Seat & Back Tubular Steel & Mesh Construction** maintains shape, increases durability and comfort to your seat and back. Backs have standard lumbar support. The seat construction will support up to **600 lbs.** on the front edge of the seat and up to **1700 lbs.** across the middle of the seat.
- **Patented Seat & Back Drop-in Assembly** makes installation and service needs extremely simple while increasing efficiency thus saving time and money.
- **Patented Fully Enclosed Silent Seat Gravity Lift System** does not require any maintenance and will operate perfectly as long as there is gravity to help, ensuring the seat will always return to a consistent position without finger or clothing entrapments. Available with **90 or 45 degrees** stops.
- **Removable Slip Cover Upholstery** allows for quick change should fabric become soiled or outlives its useful life span without fabric puddling.
- **Patented Accordion System** allows you to increase the width of seats up to **2"** thus making installations simple on straight, radius or reverse radius row configurations, allowing perfect alignment of aisle panels and reducing amount of attic stock needed.
- **Patented Axis tablet arm** is the industry's only truly Anti-Panic tablet. Tablet folds into a stored position under the arm, on its own, when occupant simply stands up out of the seat. Durable mechanism has been tested to over 100,000 cycles and can support 150 lbs. on the outside edge of tablet. Large size tablet is flush with armrest and can be used by either right or left handed people, and custom tablet sizes are available
- **Series Seating manufactures in house all product components** including foam, engineered wood, steel, and upholstery saving cost and improving quality control on all products.
