

SurfaceGlide™ Wall

SURFACEGLIDE WALL-KEY ATTRIBUTES

THIN CONTEMPORARY DESIGN WITH SILENT SELF CLOSING ACTIVATED SEAT - BACK AND ARMREST GLIDE MECHANISM

- **Elegant Thin Profile Design** with compelling visual dynamics measuring 4 ½" (114mm) thick, will remain current for a lifetime.
- **Patented Simple Yet Sophisticated** self-closing activated system, for high quality of movement during all phases of seat use.
- **Patented Back Glide System** allows user to sit in comfort at a 17-degree angle and returns to a fully enclosed vertical position when not in use.
- **Surround Foam Patented System** adds to your comfort, prevents fabric marks, prevents foam deterioration and keeps a cool temperature for long lasting use.

FOR FULLY UPHOLSTERED OUTER BACKS AND/OR UNDER SEATS

- **Patented Seat & Back Tubular Steel & Mesh Construction** maintains shape, increases durability and comfort to your seat and back. Backs have standard lumbar support. The seat construction will support up to **600 lbs.** on the front edge of the seat and up to **1700 lbs.** across the middle of the seat.
- **Removable Slip Cover Upholstery** allows for quick change should fabric become soiled or outlives its useful life span without fabric puddling.
- **Series Seating manufactures in house all product components** including foam, engineered wood, steel, and upholstery saving cost and improving quality control on all products.

OPTIONS
